

CIVIL & ENVIRONMENTAL ENGINEERING

UNIVERSITY of WASHINGTON

August 1, 2023

Dear Luis Angel Guerrero Hoyos,

I am pleased to inform you that you have been selected for a **CEE Departmental Graduate Fellowship** for the 2023-2024 academic year.

The fellowship provides a monthly stipend and payment of resident tuition. The Graduate School will provide a waiver of the non-resident portion of tuition (if applicable). You will be responsible for the remaining required student fees, which equal approximately \$250 per quarter. Your fellowship also provides medical, dental, and vision coverage.

This fellowship is contingent upon your registration as a full-time graduate student in the Department of Civil and Environmental Engineering, which requires registration for a minimum of ten credits per quarter (two credits during summer quarter). You will also be expected to demonstrate satisfactory progress toward completion of your degree.

As a fellowship recipient, you will be expected to write a letter of appreciation to the donor for their support. A template to give you some ideas for writing your letter will be sent to you at a later date. You may be invited to attend a donor luncheon hosted by the College of Engineering in early November. Additional information regarding the luncheon will be sent to you by the College of Engineering. Acceptance of this award authorizes the department to provide the donor with information about you as an individual, including academic progress if requested.
